

Overview of Environmental Activities in Fiscal 2008

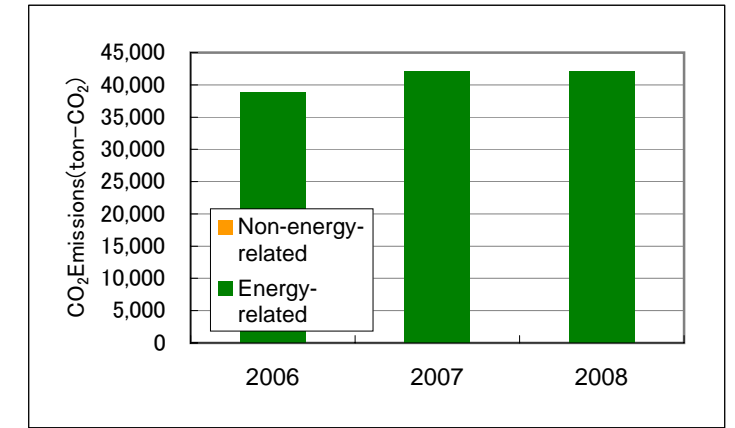

1. Profile of Business Site

Company name: Olympus (Shenzhen) Industrial Ltd.
 Address: North District, High-tech Industrial Park, Nan Tou, Nan Shan, Shenzhen, Guangdong, 518052 P. R. C.
 Telephone (switchboard): (86) 755 - 698 - 0118
 Business Activities: Assembly of cameras, processing of components
 ISO14001 certificate: September, 1999

3. Global Warming Prevention Activities

FY	Energy-related	Non-energy-related	Total
	ton-CO ₂	ton-CO ₂	ton-CO ₂
2006	38,853	0	38,853
2007	42,007	0	42,007
2008	42,137	0	42,137

2. Initiatives in the Current Fiscal Year

Environmental Education

During Environment Month in June 2008, a variety of events were staged to raise employee awareness of the environment. These included energy saving quizzes, no-car days and an eco-bag design contest. In addition, all employees signed an environmental responsibility pledge.

As part of efforts to publicize these environmental activities beyond the Olympus Group, Eco-Bags bearing the Olympus logo were distributed to customers as gifts. These activities helped to raise the Olympus Group's public image as an environmentally responsible company, while also raising the environmental awareness of employees.

Awards for Environmental Activities

In fiscal 2008, Olympus received awards from the city government in recognition of its energy conservation efforts, including the introduction of energy-efficient lamps, the replacement of aging facilities, and the optimization of air conditioning systems, and for the improvement of septic tanks.

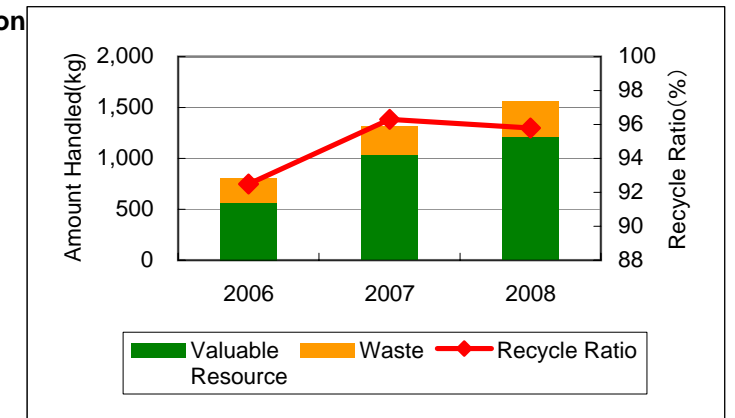

- April 2008: Fiscal 2007 Award for excellence in waste reduction by a business corporation (20,000 yuan)
- September 2008: Environmentally progressive company award (100,000 yuan)
- November 2008: Award from Shenzhen City for an exemplary contribution to the recycling economy (200,000 yuan)

Water recycling

The factory's plumbing systems were modified to allow pure water used in manufacturing processes to be reused in toilets, air conditioning filtration systems, carpet washing and other purposes. This initiative has resulted in recycling of 3,500m³ of water per month.

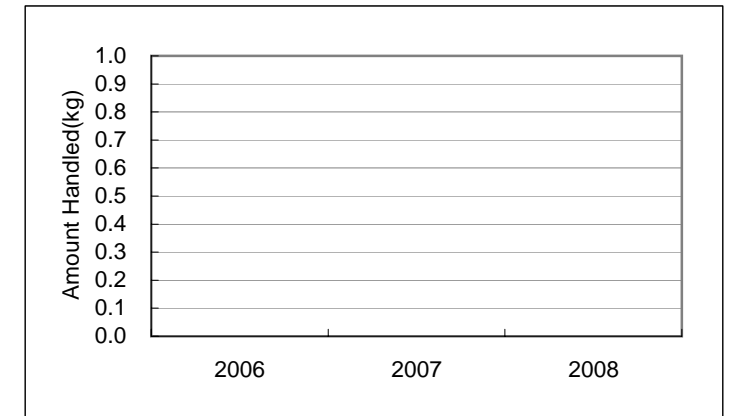

4. Effective Resource Use and Waste Reduction

FY	Valuable Resource	Waste	Recycle Ratio
	ton	ton	%
2006	564	244	93
2007	1,039	277	96
2008	1,213	353	96

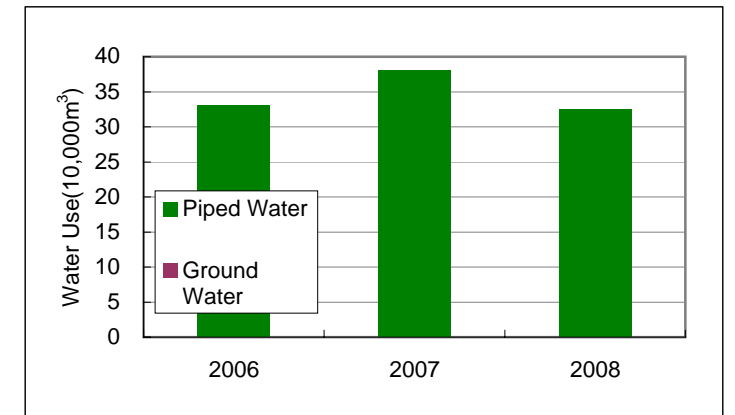

5. Reduction of Chemical Substances Used

FY	Amount Handled	Emissions	Transfer
	kg	kg	kg
2006			
2007			
2008			

6. Reduction of Water Use

FY	Piped Water	Ground Water	Total
	10,000m ³	10,000m ³	10,000m ³
2006	33	0	33
2007	38	0	38
2008	33	0	33
