Therefore, in addition to monetary compensation (basic compensation) for supervisory functions, non-performance-linked stock compensation (non-monetary compensation) is granted as compensation for the creation of corporate value.

(ii) Stock compensation for non-executive directors shall be subsequent grant-type restricted stock compensation (RSU: Restricted Stock Unit), and the right will be defined at retirement for those directors who live in Japan. The right will be defined on an individual basis in accordance with a general method of stock compensation in each region for those directors who do not live in Japan.

(iii) Stock compensation will be set at 3 million yen for both Japanese and non-Japanese residents. The number of shares to be given will be calculated based on the share price at the time of assumption of office at the general meeting of shareholders, and the number of shares will be given after vesting. In addition, the following shareholding guidelines are established.

- a. Residents in Japan: Shareholding guidelines will not be established because they will vest upon their retirement
- b. Non-residents in Japan: 0.5 times or more of basic compensation

(iv) Chairman of the Board of Directors receives a Chairman allowance in addition to the basic compensation.

(v) For those who double as executive officer, monetary compensation paid for management and supervisory functions performed as director is separate from compensation of executive officer for those who are natives of Japan. For those who are not natives of Japan, monetary compensation paid for management and supervisory functions performed as director is included in compensation of executive officer.

< Compensation of executive officers for the fiscal year ended March 31, 2021 >

Executive officers in this section include those who double as directors.

(1) History overview

(i) In the management strategy published in November 2019, we defined "the meaning of our existence (Corporate Philosophy)" as "Making people's lives healthier, safer and more fulfilling," and announced the strategic aspiration and performance metrics of "become a globally-leading medtech company contributing to people's lives by delivering innovative solutions that benefit patients, healthcare professionals, payors and providers." We transitioned to a company with nominating committees, etc. in the fiscal year ended March 31, 2020, and the position of the compensation committee was changed from a voluntary committee to a statutory committee. In accordance with the management strategy of aiming to become a global medtech company, based on the direction of greater emphasis on long-term incentive compensation (LTIs), which was discussed by the Compensation Committee in the

fiscal year ended March 31, 2019, we further deepened discussions and conducted numerous discussions about the new officer compensation system. As a result, we have established a new compensation system and described it in annual securities report for the fiscal year ended March 31, 2020.

(ii) However, with the spread of COVID-19, as the business environment in the fiscal year ended March 31, 2021 has changed significantly, the Compensation Committee determined that the reward content of the fiscal year ended March 31, 2020, originally set, is not suitable for “enhance the motivation of executive officers by setting challenging and achievable targets,” which is one of the philosophies of compensation, and it does not lead to creating corporate value and enhancing the shareholder value. As a result, we reviewed the compensation for the fiscal year ended March 31, 2021.

(2) Details of policy to determine the amount of compensation, etc. for officers or the calculation method thereof and how the policy is determined

(i) Philosophy on compensation

In order to achieve our management strategy and to create corporate value, it is essential that we have a compensation system that ensures that we have capable management personnel and that they can fully demonstrate their abilities. To this end, we have decided on a compensation system based on the following concepts.

- a. Establish a more powerful incentive program which can compete with global med-tech companies.
- b. Establish an incentive program which is consistent with the management strategy.
- c. Establish a program with focuses on value creation and performance evaluation utilizing long-term incentive compensation, which is non-monetary compensation, etc.
- d. Pay a competitive basic compensation compared to leading Japanese global companies.
- e. Ensure a sound management of incentives by putting claw-back clauses and shareholding guidelines in place.
- f. Enhance the motivation of executive officers by setting challenging and achievable targets.

(ii) Level of compensation for executive officers for the fiscal year ended March 31, 2021

1. While a standardized, global compensation system is desirable for compensation design for executive officers who are responsible for global management, differences in compensation levels by region make it difficult to attract and retain talented executives by pay levels of Japan. As such all executive officers are compensated within a standard structure and set of ratios for basic compensation (BS: Base Salary), short-term incentive compensation (STI: Short Term Incentive), which is performance-linked compensation, etc., and long-term incentive compensation (LTI: Long Term Incentive), which is non-monetary compensation, etc. However, actual compensation levels are determined by considering differences in pay levels in the country of origin of the executive officer. Basic compensation for executive officers from Japan was set by comparing with basic compensation of companies included in TOPIX500 in the medical or life science field (peer groups). The total compensation also considers the pay ratio (the ratio of CEO compensation to the median employee salary). A similar approach is used for executive officers whose country of origin is outside of Japan using appropriate local and regional benchmarks.

2. Compensation levels for the peer group are verified using objective compensation survey data from external specialist organizations.

(iii) Compensation composition of executive officer for the fiscal year ended March 31, 2021

1. Compensation for executive officer is a combination of fixed base compensation (BS), short-term incentive compensation (STI), which is performance-linked compensation, etc., and long-term incentive compensation (LTI), which is non-monetary compensation, etc.

2. For executive officers who are not from Japan, lump-sum payments and Severance Pay, as well as housing allowances and pensions, are established to make adjustments to the previous compensation agreements on an individual basis. The Compensation Committee decides on the amount and terms that are set individually. The payment of Severance Pay at the time of retirement and the amount of the allowance are determined based on multiple conditions such as the term of office.

3. Focusing on achieving management strategies aimed at enhancing medium-to long-term corporate value and shareholder value, the ratio of Performance-linked compensation, particularly long-term incentive compensation, was raised for the CEO, and the ratio of short-term incentive compensation (STI), and long-term incentive compensation (LTI) against basic compensation (BS) was set as follows.

BS:STI:LTI=1 (25%) : 1 (25%) : 2 (50%)

4. With respect to executive officers other than the CEO, the following ratios were adopted based on the same concept.

BS:STI:LTI=1 (28.5%) : 1 (28.5%) : 1.5 (43%)

(iv) Short-term incentive compensation, which is performance-linked compensation, etc., for the fiscal year ended March 31, 2021 (FY2021-STI)

While taking into account the status of the spread of COVID-19, the Compensation Committee ultimately decided the details of FY2021-STI as follows.

a. Upper limit of payment

In order to share value with our shareholders, we calculated the Total Shareholders Return (TSR) using the average share price in the most recent 30 business days of the previous fiscal year (the fiscal year ended March 31, 2020) and the current fiscal year (the fiscal year ended March 31, 2021) and set the upper limit of payment.

b. Due to the spread of COVID-19, it was difficult to establish targets for the initial financial indicators that were set, so we increased the ratio of strategic goals, which are non-financial indicators. In addition, since operating profit, which was set as a financial indicator, is an index that is greatly affected by the external environment, we have determined that it is appropriate to set general and administrative expenses, which are closely related to operating profit, as an index.

c. The composition ratio of revenue, general and administrative expenses, and strategic goals was set as follows.

Revenue	General and administrative expenses	Strategic goals
20%	20%	60%

Note:

The composition ratio of indices under the new compensation system set in the fiscal year ended March 31, 2020 was revenue 30%, operating profit 50% and strategic goals 20%.

(i) Revenue: 20%

- Even in a business environment where COVID-19 continues to spread, revenue growth is essential to achieve medium- to long-term management strategy targets and was set as an indicator.
- Evaluation table
 - The achievement rate for the management-based plan as of the first quarter equals the payment rate.
 - With 100% achievement of targets equaling 100% payment and achievement rate equaling payment rate, we have set a payment curve with a lower limit of 70% and an upper limit of 130%.

(ii) General and administrative expenses: 20%

- General and administrative expenses are set as an indicator because they are closely related to operating profit and are essential for implementing investments for future growth.
- Evaluation table
 - It is assessed using the consumption rate for general and administrative expenses versus the management-based plan as of the first quarter.
 - An incremental evaluation table for general and administrative expenses has been established in which actual results in the range of 105 to 92% provide a payment rate of 70 to 130% and actual results of 100% provide 100% payment. In addition, the lower limit of 0% is provided if actual results are over 105%, and the upper limit of 130% is provided if actual results are less than 92%.

(iii) Strategic goals: 60%

- The following “Measures to Be Implemented in Fiscal Year 2021” disclosed in June 2020 are set as the main targets.
 - Focus our corporate portfolio
 - Structural reform of fixed costs
 - Successful launch of next-generation GI endoscopy system EVIS X1
 - Continued steady investment in product development for future growth
 - Driving efficiency in our R&D operations
- Evaluation table
 - The payment curve is set at between 0% and 200% by individual policy.

(v) Long-term incentive compensation, which is non-monetary compensation, etc., for the fiscal year ended March 31, 2021 (FY2021-LTI)

1. The business environment has been greatly affected by the spread of COVID-19). However, we have decided not to change the compensation composition for subsequent grant-type restricted stock compensation (RSU) or performance-linked stock compensation (PSU=Performance Share Unit) (RSU=25%, PSU=75%), the evaluation indicators or ratios (operating margin: 40%, ROIC=15%, EPS growth rate=15%, relative TSR=20%, ESG=10%) for performance-linked stock compensation (PSU), or the target values.

2. Subsequent grant-type restricted stock compensation (RSU) has a transfer restriction period of three years, and a number of shares equivalent to 25% of the standard amount for long-term incentive compensation (LTI) (basic compensation multiplied by a factor of 2 for the representative executive officer and 1.5 for executive officers) is determined at the beginning of the transfer restriction period. This number of shares is provided after three years have passed.

3. Reasons for selecting evaluation indicators, target values, and evaluation tables of performance-linked stock compensation (PSU) are as follows.

a. Operating margin: 40%

- Operating margin, a financial guidance on management strategy was set as an indicator of performance evaluation.
- 100% will be paid to achieve the operating margin target of the financial guidance of the management strategy. The evaluation table of 0% to 200% payment is calculated based on the reasonably set logic by relative comparison with the peer group.

b. ROIC: 15%

- ROIC, a financial guidance for management strategy, is used as an indicator for performance evaluation.
- 100% will be paid to achieve the ROIC target of the financial guidance of the management strategy.
- The evaluation table of 0 to 200% payment is calculated based on the logic reasonably consistent with the evaluation table of operating margin.

c. EPS growth rate: 15%

- The EPS growth rate, a financial guidance for management strategy, is used as an indicator of performance evaluation.
- 100% will be paid to achieve the EPS growth rate target in the financial guidance of the management strategy.

- The evaluation table of 0 to 200% payment is calculated based on the logic reasonably consistent with the evaluation table of operating margin.
- d. Relative TSR: 20%
 - Relative TSR is set as an indicator of performance evaluation. It is an important standard which makes long-term performance and pay align from the viewpoints of both shareholders and the executive management.
 - Twenty global medtech companies (companies with medical or life science related businesses) are set as a peer group, and 100% will be paid if the rank of our TSR is located at 50%. The evaluation table of 0 to 200% payment is calculated based on the logic reasonably set by relative comparison with the peer group.
- e. Strategic target (ESG): 10%
 - Strategic goals are used as an indicator for ESG, which is announced to be reinforced in its management strategy.
 - The index of DJSI (Dow Jones Sustainability Index) is set as an evaluation index for the following reasons.
 - It is a highly reliable external evaluation organization and ensures transparency and fairness.
 - The breadth of coverage in the evaluation area contrasts with the expectations of a broad range of stakeholders.
 - There is completeness of corporate activities as a whole.
 - DJSI ratings are “World Index (W),” “Asia Pacific Index (AP),” and “Non-Index (N)” from the top ranks. In the fiscal year ended March 31, 2019, we won Asia Pacific Index. Establish an assessment table that emphasizes Index to be acquired in the third year, considering the outcome in the first and second years, and set payment rates of 200%, 150%, 100%, 50%, and 0%.

(3) Compensation risk management

(i) Shareholding guidelines

1. Shareholding guidelines are established to share interests between investors and management (executive officers).
2. Shareholding guidelines shall be as follows.
 - a. The CEO shall hold a number of Olympus’ shares that is three times the amount of basic compensation or more.
 - b. Other executive officers shall hold a number of Olympus’ shares that is one times the amount of basic compensation or more.
3. The shareholding guidelines will depend on the achievement of the targets but will be achieved in approximately three to five years after taking role. We will review the ratio of long-term incentive compensation (LTI), which is non-monetary compensation, etc., and consider the necessity of reviewing the holding guidelines when changing the composition of compensation.

(ii) Clawback clause

1. A clawback clause has been set up to deter the management (executive officers) from reckless investments and improper accounting.
2. Clawback is subject to short-term incentive compensation (STI), which is performance-linked compensation, etc., and long-term incentive compensation (LTI), which is non-monetary compensation, etc., for executive officer. The clawback will be turned on if the following event occurs.
 - a. An event that requires the refund of the difference between the amount of compensation that have been paid and the amount of compensation that should have been paid caused by a revelation that the information prerequisites for compensation is incorrect or different.
 - b. An event requiring the return of the amount of compensation already paid as a kind of sanctions in the event of a violation of obligation, etc.
3. The final decision on the application of clawback to individual events is made by the Compensation Committee and reported to the Board of Directors

<Compensation of directors for the fiscal year ending March 31, 2022>

Compensation of director will be paid in the following manner.

(1) Level of compensation for directors

- (i) In order to set the directors’ compensation at competitive compensation levels for securing and retaining talented personnel, the compensation level shall be 50-75% compared with the peer group in the role responsibilities and each residence.
- (ii) Compensation levels for each peer group are confirmed using objective compensation survey data from external specialist organizations.
- (iii) If a director requests to decline compensation, the Compensation Committee will confirm and decide on the response.

(2) Compensation composition of directors for the fiscal year ending March 31, 2022

- (i) Non-executive directors perform supervisory functions at various points of contact with the Board of Directors meeting, managements, and executive officers, and contribute to the creation of corporate value. Therefore, in addition to monetary compensation (basic compensation) for supervisory functions, non-performance-linked stock compensation (non-monetary compensation) is granted as compensation for the creation of corporate value.
- (ii) Stock compensation for non-executive directors shall be subsequent grant-type restricted stock compensation (RSU), and the right will be defined at retirement for those directors who live in Japan. The right will be defined on an individual basis in accordance with a general method of stock compensation in each region for those directors who do not live in Japan.
- (iii) Stock compensation will be set at 3 million yen for both Japanese and non-Japanese residents. The number of shares to be given will be calculated based on the share price at the time of assumption of office at the general meeting of shareholders, and the number of shares will be given after vesting. In addition, the following vesting and shareholding guidelines have been established.
 - a. Residents in Japan: Vested upon their retirement
 - b. Non-residents in Japan: Shareholding guidelines of 0.5 times or more of basic compensation
- (iv) Chairman of the Board of Directors receives a Chairman allowance in addition to the basic compensation.
- (3) For those who double as executive officer, monetary compensation paid for management and supervisory functions performed as director is separate from compensation of executive officer for those who are natives of Japan. For those who are not natives of

Japan, monetary compensation paid for management and supervisory functions performed as director is included in compensation of executive officer.

<Compensation of executive officers for the fiscal year ending March 31, 2022>

Executive officers in this section include those who double as directors.

(1) Type of executive officer compensation

The following compensation will be paid to each target person.

1. Basic compensation
2. Short-term incentive compensation, which is performance-linked compensation, etc.
3. Long-term incentive compensation, which is non-monetary compensation, etc.
 - a. Subsequent grant-type restricted stock compensation: FY2022-RSU
 - b. Performance-linked stock compensation: FY2022-PSU
4. Transformational FY22-RSU

(2) Level of compensation for the fiscal year ending March 31, 2022

Similar to the fiscal year ended March 31, 2021, the composition level for the fiscal year ending March 31, 2022 has been set based on the following concept.

1. While a standardized, global compensation system is desirable for compensation design for executive officers who are responsible for global management, differences in compensation levels by region make it difficult to attract and retain talented executives by pay levels of Japan. As such all executive officers will be compensated within a standard structure and set of ratios for basic compensation (BS: Base Salary), short-term incentive compensation (STI: Short Term Incentive), which is performance-linked compensation, etc., and long-term incentive compensation (LTI: Long Term Incentive), which is non-monetary compensation, etc. However, actual compensation levels are determined by considering differences in pay levels in the country of origin of the executive officer. Basic compensation for executive officers from Japan was set by comparing with basic compensation of companies included in TOPIX500 in the medical or life science field (peer groups). The total compensation will also consider the pay ratio (the ratio of the median between CEO compensation and employee salary). A similar approach will be used for executive officers whose country of origin is outside of Japan using appropriate local and regional benchmarks.
2. Compensation levels for the peer group will be verified using objective compensation survey data from external specialist organizations.

(3) Compensation composition for the fiscal year ending March 31, 2022

Similar to the fiscal year ended March 31, 2021, the fiscal year ending March 31, 2022 has been set based on the following concept.

1. Compensation for executive officer is a combination of fixed base compensation (BS), short-term incentive compensation (STI), which is performance-linked compensation, etc., and long-term incentive compensation (LTI), which is non-monetary compensation, etc.
2. For executive officers who are not from Japan, time-sum payments and Severance Pay, as well as housing allowances and pensions, are established to make adjustments to the previous compensation agreements on an individual basis. The Compensation Committee decides on the amount and terms that are set individually. The payment of Severance Pay at the time of retirement and the amount of the allowance are determined based on multiple conditions such as the term of office.
3. Focusing on achieving management strategies to improve medium- to long-term corporate value and shareholder value, we have set the ratio of short-term incentive compensation (STI) and long-term incentive compensation (LTI) to the base salary (BS) in the case of the CEO as follows.
 - a. BS:STI:LTI=1 (25%) : 1 (25%) : 2 (50%)
4. With respect to executive officers other than the CEO, the following ratios were adopted based on the same concept.
 - a. BS:STI:LTI=1 (28.5%) : 1 (28.5%) :1.5 (43%)

(4) Short-term incentive compensation, which is performance-linked compensation, etc. (FY2022 STI)

(i) Target composition

Since it is important to steadily implement long-term and strategic efforts within each fiscal year, the Compensation Committee has decided to increase the composition ratio of strategic goals among FY2022-STI targets to the following ratios.

Revenue 30%	Operating profit 40%	Strategic goals 30%
----------------	-------------------------	------------------------

(ii) Upper and lower limit on the evaluation table

Upper limit is set as 200% and lower limit 0% at each evaluation index.

(iii) Evaluation table of revenue

1. For evaluations, the impact of foreign exchange rate is adjusted, and figures adjusted by financial results that match the exchange rate applied in the same forecast of consolidated business results are used. The target is revenue in the "Forecast for the Fiscal Year Ending March 31, 2022," which is presented in the Consolidated Financial Results for the Three Months of the Fiscal Year Ending March 31, 2022. 100% will be paid for achieving 100% of the target.
2. 200% payment is paid when 104.6% of the amount of sales is achieved for 100% payment. The payment table between 100% and 200% payments is a straight line connecting the respective sales.

3. The 50% payment will be the same amount of sales as the actual sales for the fiscal year ended March 31, 2020. The payment table between 50% payment and 100% payment shall be a straight line connecting the respective sales.
4. If the sales amount for the fiscal year ending March 31, 2022 is less than the actual sales for the fiscal year ended March 31, 2020, the payment rate will be 0%.
5. The payment rate is rounded to the first decimal place.

(iv) Evaluation table of operating profit

1. For evaluations, operating margin, which is calculated from operating profit after adjustments that deduct other income and other expenses from operating profit (hereinafter “adjusted operating margin”), is used. Evaluations are carried out assuming the actual exchange rate without adjustments to the impact of foreign exchange rate. The target is the adjusted operating margin, which is calculated from the statements of profit or loss in the “Forecast for the Fiscal Year Ending March 31, 2022” and presented in the Consolidated Financial Results for the Three Months of the Fiscal Year Ending March 31, 2022. 100% will be paid for achieving 100% of the target amount.
2. 200% will be paid in the event that the adjusted operating margin surpasses 20%. The payment table between 100% payment and 200% payment is a straight line connecting the respective operating margin.
3. 50% will be paid in the event that adjusted operating margin is at the same level as the actual results in the fiscal year ended March 31, 2020. The payment table between 50% payment and 100% payment shall be a straight line connecting the respective operating margin.
4. 0% will be paid in the event that the adjusted operating margin falls below the actual results in the fiscal year ended March 31, 2020.
5. The payment rate is rounded to the first decimal place.

(v) Strategic goals

Target items are set on important company-wide issues in the fiscal year ending March 31, 2022 explained at the financial results meeting for the fiscal year ended March 31, 2021 held on May 7, 2021 and set them as common goals for all executive officers. The payment curve between 0% and 200% in the evaluation table is set for each item.

- Deepening profitable growth strategy in Medical business
- Further improvement of efficiency and effectiveness through Transform Olympus
- Continued steady investment in product development for future growth
- ESG initiatives that contribute to a sustainable society (Set indicators for FY2022-LTI)

(5) Long-term incentive compensation, which is non-monetary compensation, etc. (FY2022 LTI)

This section describes long-term incentive compensation, which is non-monetary compensation, etc. (FY2022-LTI) starting in the fiscal year ending March 31, 2022 and ending in the fiscal year ending March 31, 2024.

Long-term incentive compensation (LTI), which is non-monetary compensation, etc., in the new compensation system established in the fiscal year ended March 31, 2021 consisted of 25% stock compensation (RSU: Restricted Stock Unit) and 75% performance-linked stock compensation (PSU: Performance Share Unit). Every assessment period is three years. However, the spread of COVID-19 significantly affected the initiatives in the first year (the fiscal year ended March 31, 2021) of the management strategy announced in November 2019, and increased uncertainty in the business environment in the second year (the fiscal year ending March 31, 2022). As a result of discussions on the ratio of RSUs and PSUs of FY2022-LTI at the Compensation Committee, we set 40% of RSU and 60% of PSU.

(i) Subsequent grant-type restricted stock compensation: FY2022-RSU

1. Vesting

- a. Three years after the payment, the rights will be vested after confirmation by the Compensation Committee.
- b. When retiring as an executive officer, the rights shall be vested after confirmation by the Compensation Committee six months after the retirement.

2. Grant date and number of units provided

- a. The grant date shall be April 1, 2021.
- b. The calculated stock price shall be the closing price of Olympus’ common shares on the First Section of the Tokyo Stock Exchange on the business day prior to the grant date.
- c. For foreign exchange, apply TTM on the business day before the grant date.
- d. The total basic salary of executive officers, which is the basis for granting, is 324,983,375 yen, and the total number of units paid is 91,866 units.

(ii) Performance-linked stock compensation: FY2022-PSU

1. The PSU will be decided based on the philosophy of compensation, which is to make the incentive program consistent with the management strategy, and also in consideration of the business environment.
2. PSU metrics consist of operating profit, relative TSR, and ESG metrics.

Operating profit	Relative TSR	ESG
40%	40%	20%

- Increased corporate value is equally assessed from both a financial perspective (operating profit) and a shareholder perspective (relative TSR).
- We are focused on increasing corporate value from an ESG perspective, and the ESG metrics are 50% of the financial perspective / shareholder perspective.

3. The target values and evaluation table for each metric are set as follows.

- a. Operating profit: 40%

- Going forward, we will continuously promote reforms to increase corporate value, and the Compensation Committee has decided that the below method is suitable to assess operating profit.
 - At the start of each fiscal year during the assessment period of PSU, operating profit targets and a 0 to 200% payment curve are decided, and after the end of each fiscal year, the payment rate for each fiscal year is calculated from results. The average payment rate for the three fiscal years is then used as the payment rate for PSU's operating profit.
 - The target values and payment curve for operating profit in the current fiscal year are as shown in the section of "Short-term incentive compensation (FY2022-STI)" in which operating margin in the "Forecast for the Fiscal Year Ending March 31, 2022" presented in the Consolidated Financial Results for the Three Months of the Fiscal Year Ending March 31, 2022 is used as an indicator.
- b. Relative TSR: 40%
- Twenty global medtech companies (companies with medical or life science related businesses) are set as a peer group, and 100% will be paid if the rank of our TSR is located at 50%. The evaluation table of 0 to 200% payment is calculated based on the logic reasonably set by relative comparison with the peer group.
- c. Strategic goals (ESG): 20%
- Indicators for ESG, which is announced to be reinforced in the management strategy, are used as strategic goals.
 - The Dow Jones Sustainability Index (DJSI) is set as an evaluation index for the following reasons.
 - It is a highly reliable external evaluation organization and ensures transparency and fairness.
 - The breadth of coverage in the evaluation area contrasts with the expectations of a broad range of stakeholders.
 - It provides comprehensive coverage of overall corporate activities.
 - DJSI ratings are "World Index (W)," "Asia Pacific Index (AP)," and "Non-Index (N)" from the top ranks. Establish an assessment table that emphasizes Index to be acquired in the third year, considering the outcome in the first and second years, and decide payment rates of 200%, 150%, 100%, 50%, and 0%.

(6) Transformational FY22-RSU

The Compensation Committee believes that providing appropriate compensation to Executive Officers responsible for management to be highly motivated in their efforts to achieve the management strategies and for the results they produce will lead to the subsequent maximization of corporate value and enhancement of shareholder value.

A new management strategy announced in November 2019 replaces the 2016 Corporate Strategic Plan ("16CSP") and has progressed significantly in line with the long-term direction of Olympus. Performance-linked stock compensation, for which the evaluation period was the three-year period from the fiscal year ended March 31, 2019, to the fiscal year ended March 31, 2021, was set based on the 2016 Corporate Strategic Plan ("16CSP") and was not provided because the actual value in the performance evaluation index fell below the minimum value.

Considering the various reform themes being promoted in the business transformation plan "Transform Olympus" based on the management strategy, the one-time costs due to the transfer of the Imaging Business implemented in the fiscal year ended 31, 2021, and the impact of the spread of COVID-19, etc. from the fiscal year ended March 31, 2020, and onward, although the actual value of the performance evaluation index fell below the performance target minimum value linked to officers' compensation, the Compensation Committee has determined that the management efforts of executive officers have produced results that will lead into the fiscal year ending March 31, 2022, and onward.

In light of the above results and management efforts of the executive officers, and in the midst of an uncertain business environment, we considered it necessary to provide effective compensation to the executive officers to encourage them to continue to strive to maximize corporate value and increase shareholder value in the fiscal year ending March 31, 2022, and onward, as well as to encourage them to hold shares in order to further strengthen the sharing of interests with shareholders. Therefore, the Compensation Committee, after consulting with "Pay Governance," an independent compensation consultant, decided at the discretion of the Compensation Committee to grant the following "Transformational FY22-RSU" as subsequent grant-type restricted stock compensation.

(1) Grantees

CEO and CTO

(2) Form of payment

The unit grant date for "Transformational FY22-RSU" is April 1, 2021, and the rights will be vested three years later or upon retirement at our request. In the event of retirement that is not due to our request, the Compensation Committee will decide how to respond.

(3) Units granted

The standard amount for "Transformational FY22-RSU" is set at 18% of the basic compensation for the fiscal year ending March 31, 2022. The number of shares to be given will be calculated based on the share price on the business day prior to the grant date, and the number of shares will be given after vesting.

2. Matters related to functions of business execution, audit and supervision, personnel nomination, determination of compensation, etc. (Outline of the current corporate governance structure) Updated

As its organizational design, we have adopted the form of a company with Nominating Committee, etc. By having the Board of Directors specialize in deciding important items related to the core of management and in management supervision, we are working to enhance our management speed and supervisory functions. For items related to the everyday execution of duties, authority has largely been delegated to executive officers as we work to increase the speed of management decision making and execution by management. Furthermore, related to points that should be discussed at the Board of Directors and matters to be reported, we are working to increase the effectiveness of the Board of Directors by promoting improvements based on the results of the effectiveness evaluation of the Board of Directors.

[Supervisory functions of the Board of Directors]

- The Board of Directors consists of 11 directors, including a majority of eight outside directors, thereof all independent outside directors. Tenures of directors continue for one year. The Board of Directors convenes once every three months and when needed. The Board of Directors determines matters related to basic policies of management and internal control systems and other important matters, and monitors the execution of the duties of directors and executive officers, etc. The Board of Directors is chaired by an independent outside director. In the exercise of supervisory functions at the Board of Directors, the eight outside directors are expected to bring their specialist knowledge to bear on management. We proactively provide directors with information to enable the effective execution of their roles and duties. The outside directors may at all times when needed or when considered appropriate require clarifications and reports or the submission of internal documents from internal directors, executive officers, and employees, so as to strengthen the functions of information transmission and supervision and to create systems to ensure the soundness of management.

- So that our Board of Directors can contribute to enhancing Olympus's corporate value by cooperating with executive officers, its duties to be fulfilled are (i) improving recognition and insight into the management environment and management issues through constructive discussion with executive officers, (ii) effectively supervising management decision making and execution from a strategic, broad perspective, and (iii) supporting the promotion of strategies so Olympus can develop itself as a truly global medtech company, and it will exercise effective monitoring capabilities.

- We hold an "Executive Session," which is held after the conclusion of every Board of Directors meeting and an "Opinion Exchange Meeting for Outside Directors," which is held four times a year (once per quarter). These are meetings in which only outside directors can participate. At each meeting, the outside directors aim to share their recognition while extracting management issues and providing feedback on the details to the executive officers.

3. **Reasons for choosing the current corporate governance structure** Updated

We aim to develop itself as a truly global medtech company, and as described below, to accelerate decision making in the execution of duties and to strengthen and further increase the transparency of governance, in June 2019, it transitioned to a company with Nominating Committee, etc.

1. Acceleration of management decision making and business execution functions

Functions are separated based on the basic principle of “separation of corporate oversight and business execution” in a “a company with nominating committee, etc.” The Board of Directors focuses on deciding important matters on core managerial elements and management supervision, and works to enhance management speed and supervisory functions. We will seek to accelerate management decision-making and execution by delegating more authority to executive officers concerning matters related to daily business execution.

2. Reinforced supervisory function in management

We will establish three committees; nominating committee, compensation committee and audit committee, which consist in the majority of independent outside directors, supervise management through the functions of each committee, and build more appropriate management supervisory system.

3. Increased transparency in management

The nominating committee, which consists in the majority of independent outside directors, will decide candidates for directors, while the compensation committee, which consists in the majority of independent outside directors, will decide compensation of directors and executive officers. These committees will improve the transparency of director and executive officer assignment and compensation decisions. We will seek to further increase its management transparency to domestic and foreign stakeholders.

Furthermore, we recognize climate change as a major environmental issue that affects our business activities. We see the risks as carbon tax, carbon emissions trading, stronger regulations for CO₂ reduction by various countries, and supply chain disruptions caused by the growing scale of natural disasters such as typhoons, floods, etc. In response, we are implementing measures including activities aimed at improvements in energy efficiency, the expanded introduction of natural energy sources, and the diversification of suppliers. Other matters

[Initiatives for health and productivity management]

We have prepared a health declaration in order to clarify that establishing a working environment where employees can work in an active and healthy manner is a major premise of Olympus for proceeding with various activities, and that it is the management has resolved to properly support the maintenance and improvement of the health of employees and their families, in cooperation with the Health Insurance Association. We will promote health maintenance and enhancement among employees by further working to prevent second hand smoke, recommend lifestyle changes, encourage regular checkups and complete examinations for cancer screenings, and give advice when hospital visits are required. By actively developing health management initiatives, we were recognized as a “White 500” organization for five years in a row since 2017.

[Promotion of Work-Life Integration]

In order to prepare an environment where employees can demonstrate their abilities to the fullest and actively continue their career, even with different circumstances such as child-rearing or nursing care, the Olympus Group is promoting initiatives for “Work-Life Integration” to support both employees’ work and lives to achieve synergy between them, and is working to introduce flexible systems related to working styles and expand users. As an enhancement of supporting measures for both work and childcare/nursing care, the Group has introduced the “work-from-home system,” “re-entry system,” “position flex system,” and “reduced working hours system.” The Group is aiming to realize a diverse workplace, increase productivity and increase employees’ motivation by supporting both work and family life.

[Ensuring diversity in the Company including active roles for women]

At Olympus and its domestic Group companies, centered on the Human Resources Division, we establish and operate systems and policies to support active roles for diverse human resources. Through new workstyles centered on telework, by eliminating distance and time constraints, diverse personnel feel a sense of ease in their work and happiness in their growth as we work to create an environment in which they can flourish. In our hiring, promotions, and pay raises, we proactively use human resources that have both strong expertise and abilities and morals.

Furthermore, in promoting “Work-Life Integration,” the Olympus Group has set the promotion of women’s participation and advancement as an important issue, and formulated a plan of action for general employers in accordance with the Act on the Promotion of Female Participation and Career Advancement in the Workplace in 2016. Major initiatives include expanding employees allowed to utilize the work-from-home system, implementing the provision of information for employees taking childcare leave, creating a system that can balance work and treatments for infertility or cancer, opening childcare facilities at certain workplaces, and establishing the “Diversity Promotion Group,” which is a dedicated organization to strengthen the diversity promotion system. The Group supports career advancement of female employees by assuming life events in advance and with the concept of feed forward, which quickly provides experience and opportunities.

In 2020, we produced our first female corporate officer from within our company. As of the end of April 2021, 75 women were active in managerial positions, and the number of female employee candidates for managerial positions rose to 252, as our ratio of female employees has increased each year. We also have an increasing number of foreign nationals in managerial positions.

Aiming for LGBT persons to feel a sense of ease and happiness in their work, to create workplaces highly accepting of diversity, we offer education and events to promote understanding and are promoting the establishment of a dedicated helpdesk.

In employing persons with disabilities, we approach disabilities as one element of individuality. We proactively hire persons with disabilities by focusing on what they can do, support them as they take their positions, and offer employee education. We see the hiring of disabled persons and their onboarding as an important issue, and in addition to engaging in regular hiring activities, we have established a specialized subsidiary and are improving our onboarding system. During the onboarding process, we provide training and education to promote understanding so that superiors and colleagues can understand the nature of their disabilities. As part of our onboarding, when disabled persons first joins Olympus, they meet with the Human Resources Division, their superior, and an industrial physician. As of April 2021, we achieved a disabled person hiring ratio of 2.6%, higher than the statutory employment rate.

We proactively hire older employees who are past retirement age and believes that it is important for personnel who have exercised strong expertise and produced results in the past to continue to have an active role in Olympus. For employees who wish to continue working after the fixed retirement age of 60, we have created a system to allow them to continue working until 65. After improving the treatment of employees in April 2016, we began

reforming our position-style human resources system, which deals with personnel based on job grade, from April 2020 for rehired personnel who have a high level of expertise in order to evaluate work after rehiring. Going forward, while considering the trends and tendencies in society, including laws and regulations, we will continue to build a vibrant working environment in which employees can exercise their expertise after mandatory retirement.

[Reforming our human resources system to support the challenge of becoming a global medtech company]

To win in future competition with competing global medtech companies, we cannot only engage in regional hiring. We must also create a comprehensive operating model for governance, operations, and human resources on an integrated, global level, and improve the management efficiency of the entire Group. To realize this goal, it is essential that we assign personnel with diverse abilities that support our global business to the appropriate positions irrespective of their home country or region. We are working to create a human resources system that encourages the desire for growth among the Group employees and to build a corporate culture that allows them to use their individual abilities to the maximum for the development of Olympus.

In April 2019, we changed our human resources evaluation system for managerial employees in Japan to a position-based wage system. The job description form clarifies the roles, responsibilities, and authorities of each employee. The treatment of employees is decided based on the scale of job responsibilities and results, and we promote a hiring system that does not consider age or nationality. Furthermore, in April 2020, we standardized goal setting and evaluation criteria for global senior management and clarified their responsibility for performance. Senior management has set forth strategic goals to achieve global shared KPI and is working toward organizational reform. As a result of promoting assignments based on capabilities and suitability rather than nationality, 40% personnel of our heads of business and capabilities are foreign nationals.

In response to the spread of COVID-19, we established a global taskforce, enacted various policies that place the safety of all employees first, and are reviewing global workstyles to respond to the new normal. In Japan, we are moving forward with new workstyle reforms including eliminating limits on work-from-home days and building an environment for telework.

[Risk management]

Based on its “Internal Rules on Risk Management and Crisis Response” and related rules, the Olympus Group has built a global management system. The Group conducts risk management from the viewpoints of both “offense” that leads to the creation of sustainable growth and value for the company through proactive, sound risk-taking and “defense” to prevent fraud and accidents. We are also working to create a crisis management process to minimize the effects of unpredicted incidents on corporate value. The status of our risk management initiatives is listed in our integrated report and posted on our website.

[Compliance]

The Olympus Group works to create an honest corporate culture that complies with laws and regulations. In September 2019, we established the “Olympus Group Code of Conduct,” which is published in 18 languages on the Company’s website. The status of our compliance initiatives is listed in our integrated report and posted on the Company’s website.

[Information security]

The Olympus Group recognizes the proper handling and protection of information as a social responsibility and formulated the “Information Security Policy,” working to ensure information security. The details of our information security are listed in our integrated report and posted on our website.
