Due to this, the amounts presented for revenue, operating profit and profit before tax are the amounts from continuing operations. The amounts presented for profit attributable to owners of parent are aggregates of continuing operations and discontinued operation.

## 2. Reasons

After taking into consideration progress in the third quarter relative to the assumption of the previous outlook and factors such as shipment suspensions in the Surgical & Interventional Solutions Division, we have revised the previously announced consolidated financial results forecasts. Considering uncertainties, we are disclosing amounts currently anticipated for certain line items in a range format.

(Note) The above-stated financial forecast is based on the information available on the release date of this material. Risks and uncertain factors concerning the world economy, competitive situation, exchange fluctuations and others in the future may result in significant differences between the stated forecast values and actual results.
