

Corporate Philosophy

OUR PURPOSE Making people's lives healthier, safer and more fulfilling

Note: The previous "Social IN" corporate philosophy was replaced by the new corporate philosophy on May 31, 2018.

Since our founding in October 1919, we have developed breakthrough, category-leading products that have helped shape our industry.

At Olympus, we are driven by Our Purpose and a set of five Core Values that ensure a common understanding of who we are and what we stand for all over the world. Aligning around a shared Purpose and set of Core Values will unite us as one company and guide us on our journey to growth and greater impact.

OLYMPUS

Our Purpose

Our Purpose is our reason for being, the culmination of our efforts that motivates us all to come to work every day.

Our Core Values

Our Core Values are the beliefs and principles we share. These are the elements that best describe the type of company we are and strive to be.
