Olympus Unveils the Latest M.Zuiko Digital Lens Roadmap and Updates the Development of M.Zuiko Digital ED 150-400mm F4.5 TC1.25x IS PRO

Olympus Corporation (President: Yasuo Takeuchi) is pleased to announce the latest lens roadmap for M.Zuiko Digital lenses that conform to the Micro Four Thirds System standard, and provide an update on the development of the M.Zuiko Digital ED 150-400mm F4.5 TC1.25x IS PRO lens of which the development was announced in January, 2019.

The development on the M.Zuiko Digital ED 150-400mm F4.5 TC1.25x IS PRO lens was announced in January 2019. Development of this lens continues with an estimated scheduled release of this winter. The final image design of the product is now available.

Furthermore, to make super telephoto shooting more convenient, the development is under way to add Bird detection to Intelligent Subject Detection AF on the Olympus OM-D E-M1X. The firmware is scheduled for release this winter.

Olympus will continue enhancing the lens lineup to make full use of the unrivaled portability made possible by the compact, lightweight, high image quality of the Micro Four Thirds System.

■Summary of contents

1. The latest lens roadmap for Olympus M.Zuiko Digital Lens
2. Updated information of M.Zuiko Digital ED 150-400mm F4.5 TC1.25x IS PRO
3. Development of future firmware upgrade to support Bird detection AF

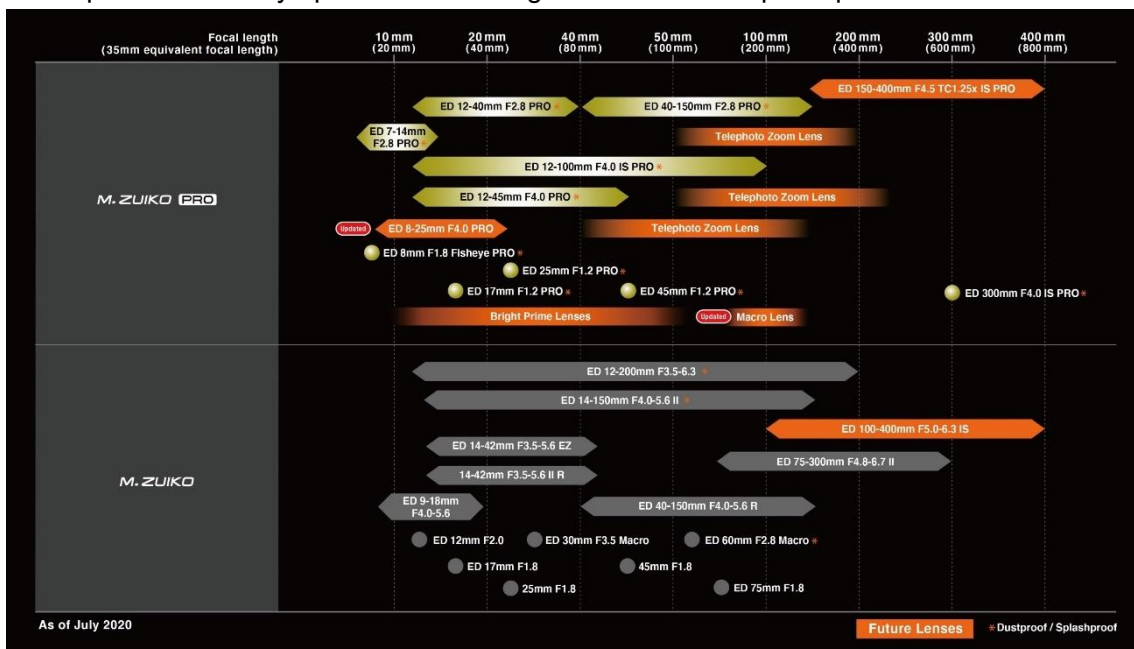

Final image design of M.Zuiko Digital ED 150-400mm F4.5 TC1.25x IS PRO

▪Details of information

1. The latest lens roadmap for Olympus M.Zuiko Digital Lens

- M.Zuiko Digital ED 8-25mm F4.0 PRO is updated
- Macro Lens is added
